Unconventional Gas - Water Management Conference 4 June 2013, Aberdeen, UK

Don't miss your chance to attend!

NEL's first unconventional gas exploration & production (E&P) water management conference will take place in Aberdeen on 4th June, 2013.

The event will focus on one of the major challenges operators face - how to manage significant volumes of flowback and produced water.

Supported by Scottish Enterprise, the conference brings together regulators, operators, leading industry experts, service companies and academia. Speakers will include the UK's Environment Agency, Scottish Environmental Protection Agency, as well as operators Shell, Statoil and BG Group.

In addition, NEL will also present the findings from a recently completed National Measurement Office study on water management of unconventional gas production.
